THE NEW MXS - MXX

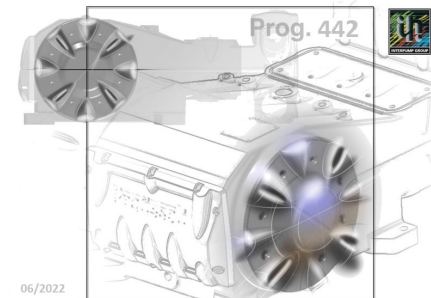

162 kW

220 hp

*In the course of 2022 the MXS and MXX pumps will be proudly introduced in the Pratissoli pump line up. The new power end design allows for different ratings off the same power frame to provide two power classes: MXS 220 HP and MXX 190 HP*

## THE NEW MXS - MXX

*MK2S 180 HP*

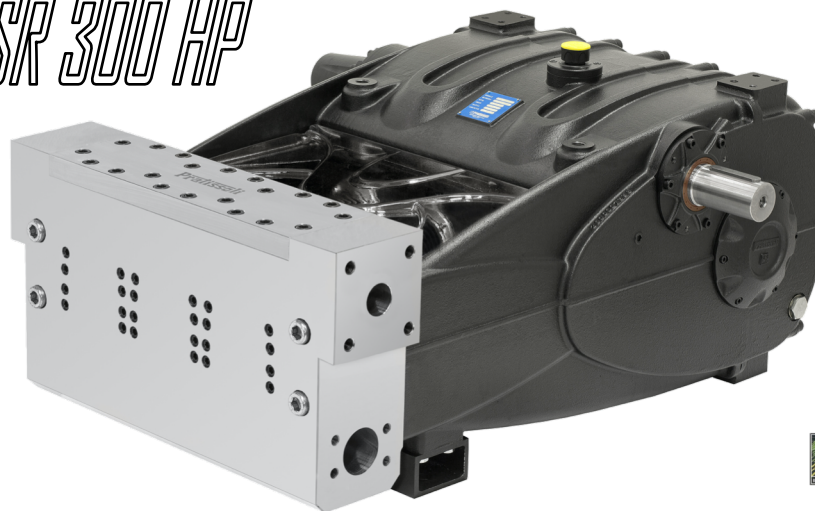

*Now the line is complete !  
The MXS-MXX fill the gap in between  
the current 180 Hp and 300 Hp  
pump.*

*MXX 190 HP  
MXS 220 HP*

*SR 300 HP*

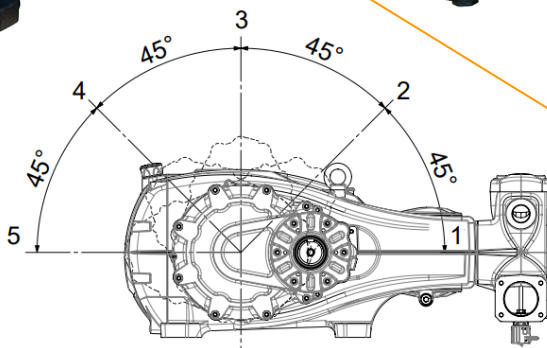

**INTERPUMP GROUP**

## THE NEW MXS - MXX

**162 kW**  
**220 hp**

*The positionable gear box makes installation in a truck an easy exercise while the forced lubrication by the integrated oil pump with spin-on filter make the MKS - MXX the perfect match for a variety of heavy duty industrial applications.*

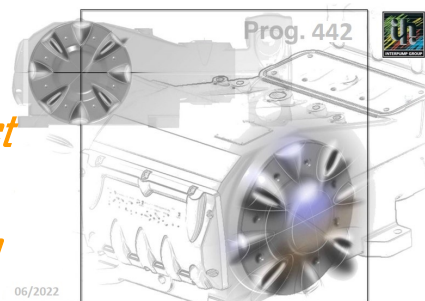

# Pratisoli

## THE NEW MXS - MXX

*Long strokes for a better volumetric efficiency (85 mm. MXS and 74 mm. MXX)*

*Integrated oil pump to ensure perfect lubrication under any working condition. Both directions of rotation are allowed.*

*Heavy duty gear box, radial load such as pulley/belt drive or pneumatic clutches is allowed.*

*Spin-on oil filter, a cleaner oil for longer time trouble-free operations.*

**162 kW**  
**220 hp**

## THE NEW MXS - MXX

162 kW  
220 hp

*The manifold material is AUSTEMPERING cast iron for a great resistance against cavitation and wash out effects*

*Solid ceramic plungers come standard with any MXS-MXX version*

*The round pattern of sealing areas extend life of both valve disks and valve seats.*

*Pressure packings are lubricated by inlet water, resulting in a longer packings and plungers life due to a lower operating temperature and friction produced.*

INTERPUMP GROUP

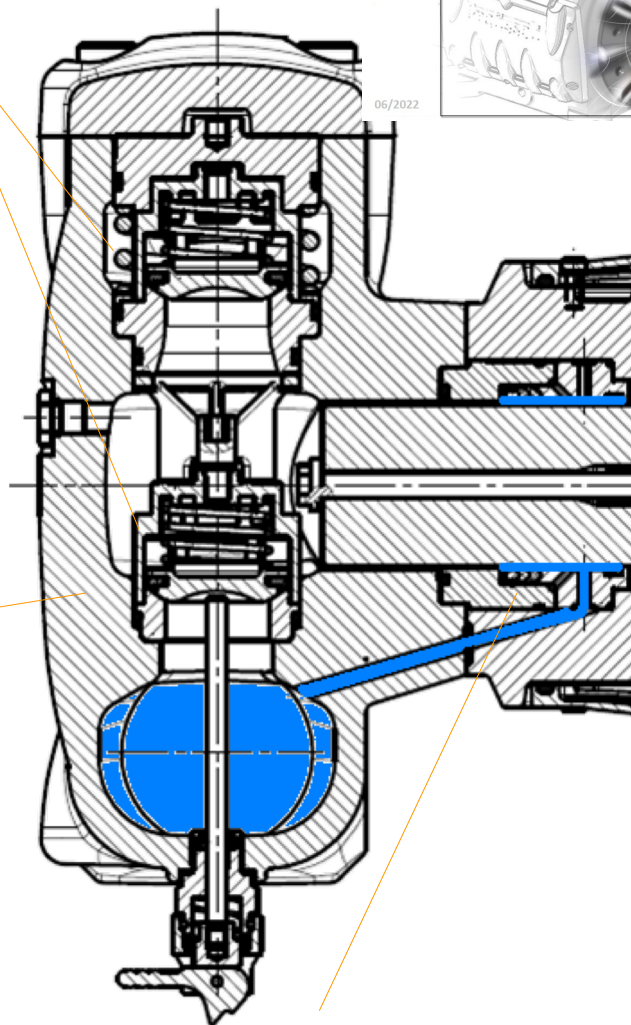

# Pratissoli

## THE NEW MXS - MXX

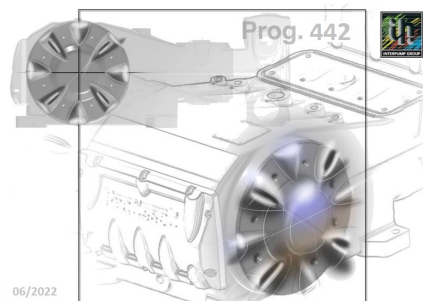

*The round pattern of sealing areas and a polymer ring, hydrocarbon resistant, included in the valve disk, dampens the noise generated by the valve work.*

*The manifold design reduces inside dead volumes thus increasing volumetric efficiency, reducing the risk of cavitation and contributing for a noise reduction.*

*High & Low pressure packing design provides a water seals against air suction from the rear of the cylinder during the suction stroke.*

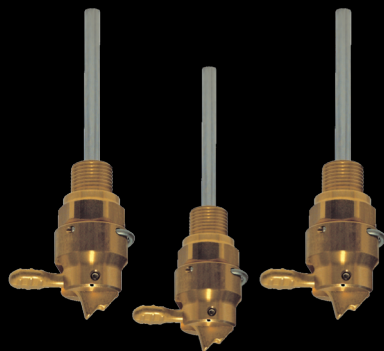

# 162 kW 220 hp

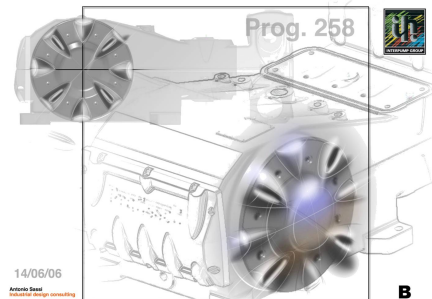

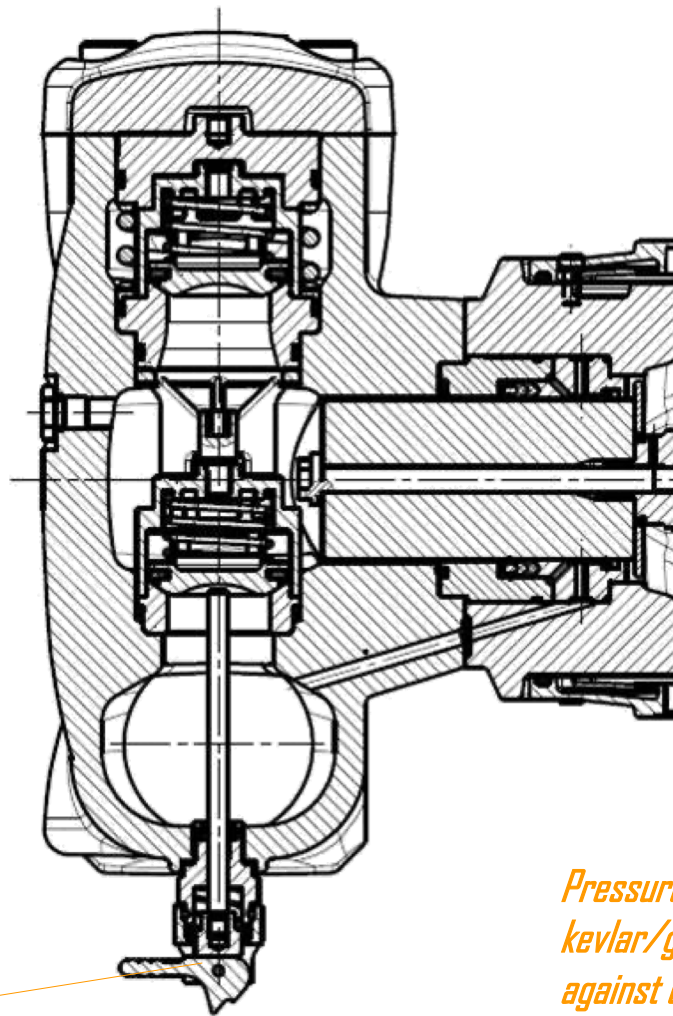

# Pratissoli

## THE NEW MXS - MXX

*The drain valve kits are standard with the MXS - MXX and supplied in the box along with the pump.*

*Pressure packings are made of kevlar/graphite for improved resistance against charged water.*
